Mushke Rohith Reddy

Last updated: October 12, 2026

byrohithreddy | mushkerohithreddy | mushkerohithreddy@zohomail.in

Summary

Computer Science undergraduate with experience in building and deploying Full stack solutions, including NLP-based classification and recommendation systems. Proficient in Python, data analysis, and model building, with a focus on real-world full stack applications and scalable solutions. Passionate about solving problems using data-driven approaches.

Work Experience

Android Developer Intern – DevElet Aug 2024 – Sept 2024

- Worked on Android application development in a remote internship.
- Integrated BLE connectivity and QR code scanning (ZXing) to enable real-time device interaction

Projects

Fake News Detector (NLP) Live Demo | GitHub

NLP classifier using TF-IDF, Logistic Regression, and Random Forest achieving 85%+ accuracy
Developed interactive Gradio interface for real-time predictions
Implemented preprocessing pipeline including tokenization and feature engineering

UPI Payment Collection System (Free-pi) Live Demo | GitHub

UPI based Peer to Peer irreversible payment verification and collection system for merchants
Secured using JWT Auth, Hashing, Rate limiting, HTTPS only Enforcement,Key based access control
Fast-tracked Manual payment verification and Automated collection system for payments below 2,000.

E-Gatepass / Student Gatepass Management System (EGMS) Live Demo | GitHub

Developed full-stack web application with role-based access control
Implemented barcode-based verification system solving manual paper based verification
Designed responsive dashboard for monitoring and reporting

Education

2023 – 2027 B.Tech in Computer Science at **Malla Reddy College of Engineering and Technology**

2021 – 2023 Intermediate (MPC) at **Narayana Junior College** (Grade: 8.76/10)

Skills

Programming Languages	Python, Java, C, SQL
Data Science & ML Skills	Machine Learning, NLP, EDA, Statistical Analysis
Database Technologies	PostgreSQL, Supabase, Cloudflare D1
Web Technologies	HTML, CSS , JavaScript , React , MongoDB
Tools & Platforms	Jupyter Notebook, Git, GitHub, Microsoft Office, Hugging Face, Gh Pages

Certifications

2025 **TCS iON Career Edge – Young Professional** 240640280878311016

2024 **Prompt Engineering for ChatGPT** (Vanderbilt University) ZHOPDWOFZCNH

2024 **English Empowerment – C1 Level** (Cambridge University)

2024 **Web Designing / HTML Workshop** (Dcode Soft Tech Solutions)

Achievements

- Blitz Cohort – Completed startup Mentorship Program at T-Hub; led a team of 3 (Team Buddy)
- SIH hackathon – Lead Team of 6 people got shortlisted in the internal hackathon competition.
- 1st Place Winner – MRCET Startup Competition among 30+ teams
- Core Team Member – Organized GDG Hackathon with 800+ participants

Languages

English C1 Level

Telugu Native Proficiency

Hindi Conversational
